Mr. Guida stated that the outcome of the recent forum regarding the feasibility of changing start school times indicated that a workshop be scheduled to discuss practical issues and logistics of this possible initiative. It was emphasized that a survey needs to be distributed to parents, students and teachers to get their input. Dr. Douglas suggested that it would be helpful to

provide more education regarding the value of sleep prior to a survey being distributed. A member of the audience expressed his view regarding this initiative and noted that it would be a financial hardship for his family. The School Committee will be polled to determine a date for the workshop and it was suggested that members of the Health and Wellness Committee be invited to the workshop.

Dr. McIntyre presented brief update on the budget and indicated that the present proposed 2012-2013 budget represents a 2.1% increase. He noted that this draft budget would require no lay-offs. He requested direction from the Committee as what direction they would like administration to take with regard to budget numbers. Mr. Guida suggested we start with the numbers included in the present proposed budget and work the numbers down, if necessary, during the budget process.
